

UNLOCKING BIG DATA INSIGHTS ON THE DATA TRANSFORMATION JOURNEY

DATASIGNALS LAKE

Big Data is here and is driving the digital transformation journey that enables companies to improve operational efficiency, customer satisfaction, decision making, and profitability. However, data across all industries is increasing at a rapid pace, and North American power markets are no exception. Increasing volumes of data become available to nodal market participants each day. Securing and deriving insight from this data can be challenging but necessary.

The suite of DataSignals products delivers powerful, insightful, actionable data to power nodal market participants. Gain actionable insight to power your business using Yes Energy's robust, comprehensive, engineered, and secure data products. Whether you are just learning to navigate markets, are a data science whiz, a small trading shop, or a large utility, we have a solution for you and your business data needs.

DataSignals Lake allows your data experts to work with Yes Energy's data in the tools and frameworks they prefer. This solution is ideal for businesses who already have established analytic, storage, or security processes, allowing users to download and import raw data files into existing networks, storage systems, and applications.

DataSignals Lake offers the ultimate flexibility and scalability to power your data needs.
