

MINUTE BY MINUTE MARKET INSIGHTS

LIVE POWER

As of August 2022 we are happy to announce that Live Power is part of Yes Energy. Since its inception in 2016, Live Power has partnered closely with Yes Energy to deliver the fastest generation & transmission flow data available to Yes Energy's customers. Now, Yes Energy and Live Power are one company focused on bringing mission-critical data to power your most important decisions.

CAPABILITIES

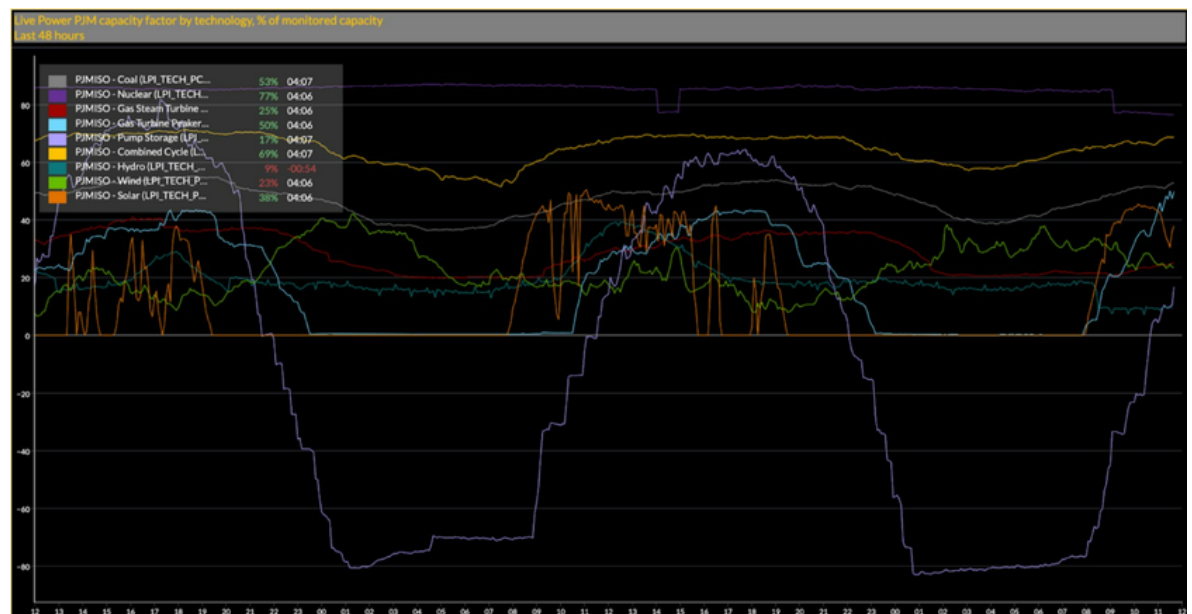

- See online and offline dispatchable capacity - a leading indicator of real-time prices
- See inter-zone transmission flows - a leading signal of real-time congestion
- See renewable production on the geographic "edges" of the market - a leading indication of changes in ISO-wide fleet performance
- See sudden plant and line outages - a driver of unexpected scarcity pricing
- Capture today's grid flows - calibrate models daily with latest plant/line data

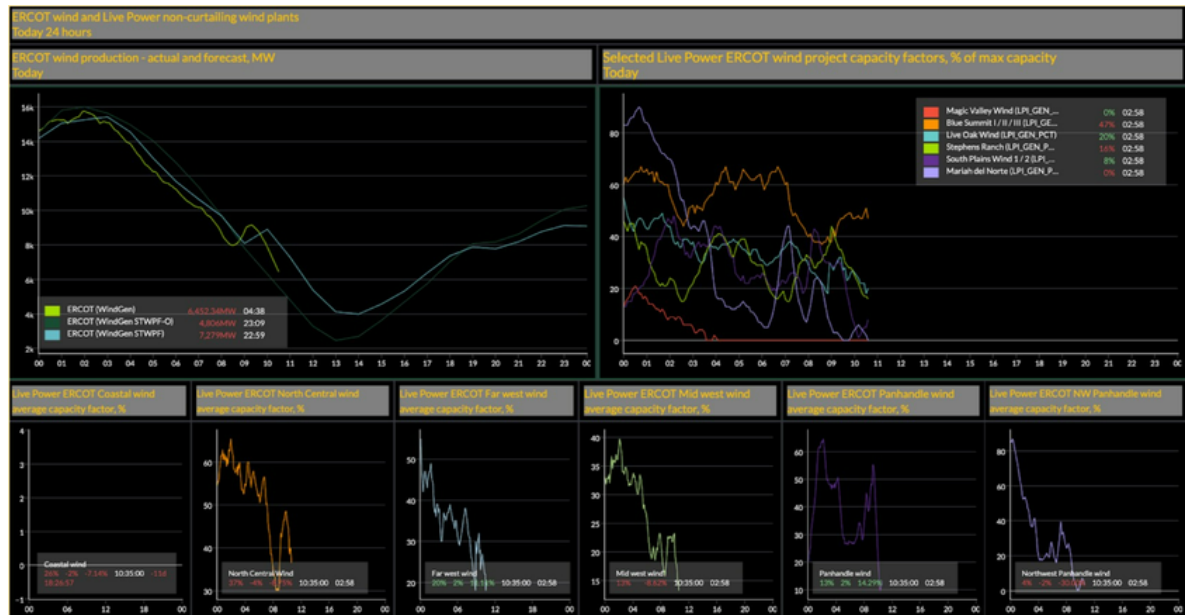

KEY BENEFITS

- Fast Reporting: Fastest-in-industry reporting supports first-mover advantage
- High Accuracy: Latest generation from patented measurement technology with advanced capabilities
- User-Friendly Data Access: Easily access data in maps, alerts, real-time and historical views, as well as in the DS API, Snowflake and DS Lake to support intensive real-time analytics
- Most Relevant Resources: Plant and transmission flow measurement focused on today's market dynamics and customer input

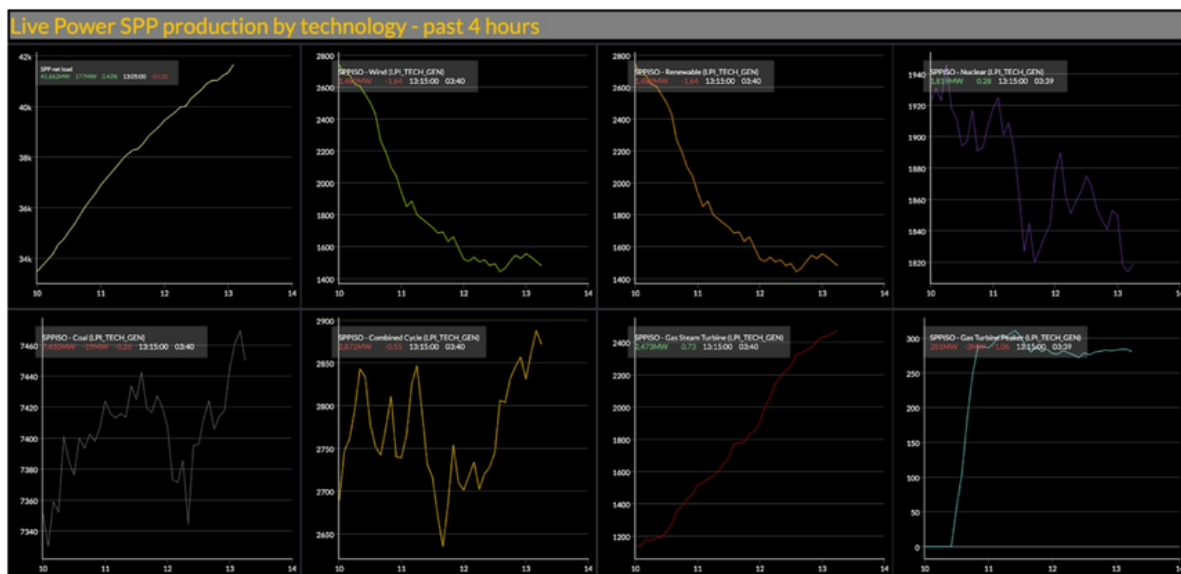

LIVE POWER PJM CAPACITY FACTORS BY RESOURCE TYPE
