

**DATASIGNALS LAKE**

# Pipeline-Ready Bulk Access to Historical Power Market Data

## DS LAKE FEATURES

- Unlimited access to historical, analytics-ready market data
- No usage caps or consumption fees for high-volume use cases
- Pipeline-optimized delivery via Amazon S3 in standardized, gzipped CSV format
- Data structured for scalability across databases, models, and custom applications
- Full documentation, metadata catalogs, and GitHub-hosted code samples
- Rigorously validated data flow with comprehensive QA processes

Power is perhaps the world's most complex and data-rich commodity market. Collecting, storing, and making sense of the tremendous volumes of data available is extremely challenging, but absolutely necessary in order to optimize decision making, profitability, and operational efficiencies. Whether you're optimizing trading strategies, forecasting market trends, or integrating real-time insights into your operations, having reliable, accessible, and structured data is essential.

Yes Energy offers comprehensive, analytics-ready data to drive all power market use cases and simplify costly and complex data collection processes.

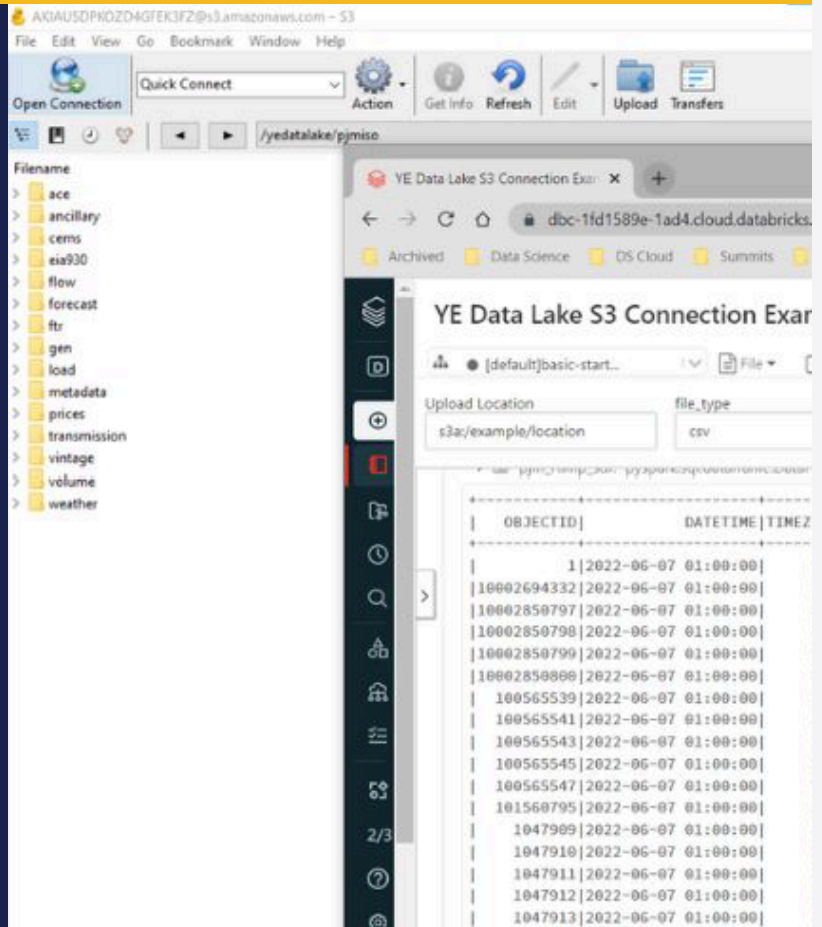

DataSignals<sup>®</sup> Lake delivers Yes Energy's normalized data via Amazon S3 to easily populate your own preferred data frameworks, databases, and platforms.

DataSignals Lake is ideal for organizations that manage their own data infrastructure and need bulk historical power market data to populate databases, data lakes, or data pipelines.

## DATA INSIGHTS THAT POWER YOUR BUSINESS

### DS LAKE BENEFITS

- Leverage Yes Energy's complete data warehouse for modeling, backtesting, and long-term storage
- Seamlessly ingest data into your existing infrastructure—on-prem or in the cloud
- Effortlessly populate internal platforms and advanced analytics tools with normalized data
- Scale downstream processes confidently with structured, reliable datasets
- Accelerate deployment and reduce development time with robust documentation and validated data delivery

### ABOUT YES ENERGY®

Yes Energy is how traders, power companies, and asset managers and developers can finally make sense of the complex, rapidly changing power market.

Supported by best-in-industry customer support, you get up-to-date data, comprehensive tools, and a specialized partner to help you make the right decisions every day.

It's time to Win the Day Ahead™ and only Yes Energy brings you the unique combination of better data, better delivery, and better direction you need to do that.

"We made the choice early on to go with Yes Energy so we didn't have to develop all the data infrastructure...Yes Energy is unique, in their people and in their dedication to providing the data for us. We don't really have to think about it and we're glad that we've got the Yes Energy team working, so we can focus on our side of the business."

Stephen Bliley, Analytics Lead, Habitat Energy
