

# PowerSignals®

## UNLOCKING POWER MARKET INSIGHTS WITH VISUAL AND INTUITIVE ANALYTICS

Nodal power markets are **complex** and market participants need powerful, actionable, and intuitive market data to plan and execute their strategies.

The Yes Energy® flagship product, **PowerSignals®**, is a dynamic solution that simplifies huge amounts of detailed market data by transforming it into actionable insight. PowerSignals' easy-to-use modules enable you to visualize ISO data such as nodal prices, transmission and generator outages, congestion, power plants, transmission lines, weather data and gas prices all in one place. For further analysis, PowerSignals allows you to easily drill down into more detailed maps, charts, and all of the underlying data.

PowerSignals is fueled by the most comprehensive power market data available, dating back to the inception of each ISO. Look back through historic market data, or view real-time data across the PowerSignals tool as it will automatically pull in the latest data from all primary sources. With Yes Energy's experts behind PowerSignals, you never have to worry about data corrections or updates—Yes Energy stays on top of market changes so you don't have to.

### Capabilities

- Immerse yourself in comprehensive ISO market data
- View comprehensive maps that enable you to drill into market fundamentals
- Develop trading strategies for Bal-Day, Virtuals, Spreads, and FTRs
- Discover the best opportunities using visual analysis tools
