

POWERSIGNALS®

Unlocking Power Market Insights with Visual and Intuitive Analytics

FEATURES

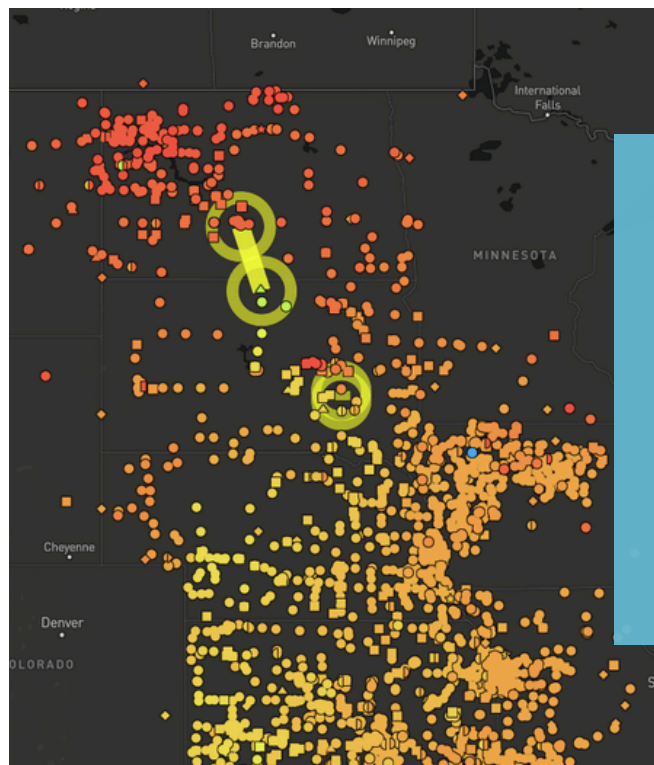

- Immerse yourself in the most comprehensive real-time and historical ISO data available
- Dynamic platform continuously updated with the latest market data
- Standardized data across ISOs and third-party sources
- Visualize nodal prices, congestion, outages, transmission lines, and more in one platform
- Uncover and analyze insights with interactive maps and charts built for data exploration
- Leverage portfolio management tools for competitive intelligence in FTR markets and submit day-ahead bids directly in Yes Energy's tools

Nodal power markets are complex and market participants need powerful, actionable market data to plan and execute their strategies.

PowerSignals simplifies extensive amounts of detailed market data by transforming it into actionable insights. The user-friendly modules enable you to visualize ISO data including nodal prices, transmission and generator outages, congestion, power plants, transmission lines, weather data, and gas prices—all in one place. For deeper analysis, drill down into maps, charts, and all of the underlying data.

PowerSignals is fueled by the most comprehensive power market data available. Look back through historical market data, or view real-time data as it is automatically pulled in from all primary sources

With Yes Energy's experts behind the data, you never have to worry about data corrections or updates. Yes Energy stays on top of market changes so you don't have to.

PRODUCT BENEFITS

- Develop trading strategies for Bal-Day, Virtuals, Spreads, and FTRs
- View comprehensive maps that enable you to drill into market fundamentals
- Discover the best opportunities using visual analytics
- Optimize your portfolio with integrated market analysis
- Stay ahead with alerts on critical transmission and generation outages

ABOUT YES ENERGY®

Yes Energy is how traders, power companies, and asset managers and developers can finally make sense of the complex, rapidly changing power market.

Supported by best-in-industry customer support, you get up-to-date data, comprehensive tools, and a specialized partner to help you make the right decisions every day.

It's time to Win the Day Ahead™ and only Yes Energy brings you the unique combination of better data, better delivery, and better direction you need to do that.

"I use PowerSignals...and it helps me through my array of analysis, especially around congestion and energy pricing...Yes Energy makes complex data very simple and easy to use and it's pretty much a must have in all of power trading."
