# YES ENERGY®

Submission Services™

EMPOWER YOUR ISO TRADING WORKFLOW

Take the guesswork out of day-ahead virtual and spread trade submission, and build, analyze, validate, and submit your day-ahead virtual and spread trades within one solution.

- Build and analyze your portfolios using our market-leading trade discovery solutions: PowerSignals® and DataSignals.®

- Validate and submit portfolios with the click of a button or with full automation.

- Fully automate your trade workflow using our Submission API endpoints.

- Receive your day-ahead clearances directly upon market clearing.

- Track your performance in real time via the Daily Portfolio Analysis module and API endpoints.

- Manage your credentials securely and easily using the Account Manager module.

Validation to Prevent Trade Submission Issues

- Fully automate your trade workflow using our Submission API endpoints

- Validation processes including energized and valid nodes, electrically similar nodes, ISO specific rules (volume and price rules), wash trades

- Backed by a team of market experts who stay updated on ISO developments and ensure our solutions are proactively updated as required

- Support from a dedicated team to assist with your trade submission related inquiries
