

# PowerCore

## ESSENTIAL FRONT-TO-BACK OFFICE SOFTWARE FOR MARKET PARTICIPANTS

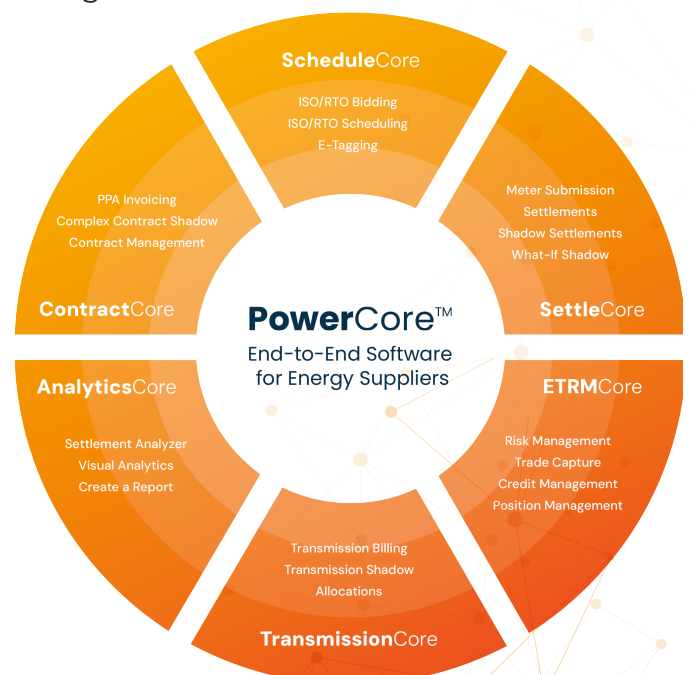

Power Settlements and its PowerCore™ platform, live at the very core of software development that redefines and amplifies success in energy market participation.

PowerCore™ is a multi-component, integrated, web-based solution built on the latest technologies to enhance how energy companies manage their bid-to-bill operations in ISO/RTO-controlled markets. PowerCore™ delivers a long list of benefits including:

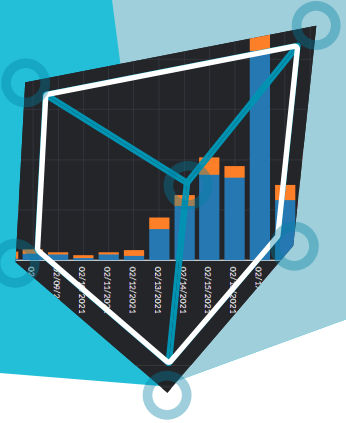

- Rapid implementation based on today's needs with easy scalability as enterprise requirements grow.
- Business-optimizing impacts that are seen quickly, with most clients reporting significant bottom-line results in the first year of use.

PowerCore™ has become an indispensable tool to help energy suppliers navigate extraordinarily complex market terrain that incorporates volatile conditions, 24/7 operations, and an ever-changing set of rules, policies, procedures, and workflows.

And, PowerCore™ delivers the lowest total cost of ownership (TCO) and greatest return on investment (ROI) of any bid-to-bill software platform.

# ONE PLATFORM FOR ALL FRONT-TO-BACK OPERATIONS

## POWERCORE™ USERS

- Investor-Owned Utilities
- Public Power Utilities
- Federal Power Marketing Administrations
- Generation & Transmission Cooperatives
- Community Choice Aggregators
- Renewable Project Developers
- Independent Power Producers

## What Customers Say

“Power Settlements’ technology is one-of-a-kind. We were at first overwhelmed with the amount of data used in the structured markets to determine and calculate charge codes, but PowerCore™ accelerated our position from novice to intermediate on day one. It delivers a level of trust and expertise that makes it ideal for any level of user right out-of-the box.”

**Tara Davis**, Energy Services Administrator  
Arizona Electric Power Coop

## ABOUT POWER SETTLEMENTS

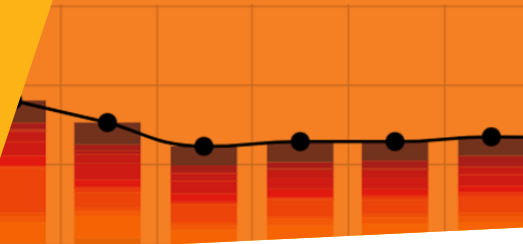

Founded in 2007, Power Settlements is based in Glendora, California and proud to be part of the Yes Energy family of companies.

We partner for the long haul with a diverse array of energy suppliers to help them thrive while navigating an extraordinarily complex market terrain incorporating volatile conditions, 24/7 operations, and an ever-changing set of rules, policies, procedures, and workflows.

PowerCore™ is a best-of-breed solution for today’s energy industry professional and is surrounded by a multi-component service featuring Power Settlements’ renowned customer support.
