

Submission Services™

EMPOWER YOUR WORKFLOW

As a virtual or spread trader, a significant amount of time and effort can be wasted on trying to meet the various ISO bidding standards and valid node collections. **Submission Services™** takes the guesswork out of DA virtual and spread trade submission. It ensures you align to and fulfill ISO requirements with comprehensive validation logic being directly embedded and enabled in the submission process. This is all delivered to your front office through a visual portfolio analysis dashboard and an easy to integrate data API.

Submission Services is directly embedded into the same Yes Energy® (Power Signals®, DataSignals®) tools you use to analyze, build, validate, and submit your portfolios, enabling you to research and submit to multiple ISO's, then track and manage your portfolios all from a single tool. Submission Services streamlines the submission process by standardizing the workflow across ISOs. Our team of market experts stays updated on ISO developments and ensures Submission Services is proactively updated as required per ISO requirements. This is all part of Submission Services providing exceptional performance in trade execution and validation. Put our knowledge and expertise to work for you so that you can keep the focus on maximizing your risk and return in the DA market.

Capabilities

- Build and analyze your portfolios using PowerSignals® and DataSignals®
- Validate and submit portfolios with the click of a button or with full automation
- Receive your day-ahead clearances directly upon market clearing
- Manage your credentials securely and easily using the Account Manager module
- Track your performance in real-time via the Daily Portfolio Analysis module and API endpoints

SEAMLESSLY BUILD, ANALYZE, VALIDATE AND SUBMIT YOUR TRADES

Product Features

- Fully automate your trade workflow using our Submission API endpoints
- Validation processes including energized and valid nodes, electrically similar nodes, ISO specific rules (volume and price rules), wash trades
- Backed by a team of market experts who stay updated on ISO developments and ensure our solutions are proactively updated as required
- Support from a dedicated team to assist with your trade submission related inquiries

What Customers Say

"Yes Energy is great to work with. You can always get them on the phone or email through their support line. They are market professionals that are interested in learning about us and helping us succeed."

~ Stephen Bliley
